WELCOME MESSAGE FROM APAAACI

Dear Friends and Colleagues,

Allergic diseases and asthma are a growing health problem worldwide with a marked socioeconomic impact. With the rapid environmental and life style changes, and the rapidly growing economies the Asia-Pacific region faces a major brunt of the burden of allergic diseases. Parallel to this are the advances in scientific evidence, epidemiological and epigenetic characteristic of the region.

The Asia Pacific Association of Allergy, Asthma and Clinical Immunology (APAAACI) was established in Bali in 1989. APAAACI will be celebrating its 30th year Anniversary in 2019. In the light of this, from 5-7 September 2019, The Chinese Society of Allergy (CSA) will host the APAAACI 2019 International Conference in Beijing, China jointly with the annual CSA congress. Remembering our predecessors, and motivating the future generation is key to this international congress. The theme of the Congress is "Memorable history, Glorious present, and Splendid future: Current to emerging therapies for better patient care."

The Joint Congress will be a milestone in the history of Allergy in AP. The scientific program will be a well-woven combination of the most recent advances and practical clinical aspects in allergy asthma and clinical immunology targeting both clinicians and researchers across specialties working in this space. With key international, regional and national leaders this will be a strikingly unique platform for leaders, colleagues and juniors working in the field to have the best scientific exchange and future collaborations. The congress will also have specific aspects of the History of APAAACI, its past leadership and future directions.

On behalf of the APAAACI and CSA boards we call upon all member societies of APAAACI , colleagues from within and outside the region and relevant companies to attend this scientifically state-of-the-art Congress for a unforgettable experience in the beautiful historical city of Beijing.

WELCOME MESSAGE FROM CSA

Dear colleagues,

On behalf of the local organizing committee, Chinese Society of Allergy (CSA) and Beijing Society of Allergy, we would like to welcome all of you from home and abroad to attend the APAAACI2019 and CSA2019 joint meeting in Beijing.

September, so-called goldenautumn is the best season in Beijing. Beijing is one of the seven ancient capitals in China. It was built over 3000 years ago and developed to a capital city 1000 years ago. It has the largest number of world heritage sites in the world, and many scenic spots, historic sites, comprehensive and theme museums. It is a city combining history with modernity, and where the East meets West.

We hope that the participants from all over the world will have a chance to appreciate Beijing's historic sites, beautiful scenery and delicious food, while enjoying the academic feast presented by this congress.

Wish the congress a big success. Wish you a pleasant and healthy stay in Beijing.
